LEADERS IN OUTDOOR COMFORT AND VALUE

Since 1990, Windward has been crafting quality outdoor furnishings made to stand the test of time. Having built its roots in the commercial industry, Windward knows what it takes to build a product capable of enduring high traffic. No matter the scope or application, Windward is your source for outdoor furnishings.

As a family owned and operated company, we understand the importance of the outdoor room as a gathering point. Making memories with friends and family is always time well spent and we appreciate every opportunity to be chosen as the backdrop for those moments.

Based in Sarasota, Florida, we strive to partner with our dealers to provide exceptional quality, superior service, and in-demand styles.

All of our products are made in our Sarasota factory. We stand firmly by our goal of manufacturing the highest quality products at at competitive prices. Our belief has always been that our strongest asset is our value.

Originating as Royal Patio Manufacturing, President and owner, David Peace, re-strapped furniture for hotels and condominiums on the west coast of Florida. In 1991, he was able to move the business from his backyard to a 12' x 24' storage unit located in Bradenton, FL, where his manufacturing equipment grew to include a hand bender, a chop saw, a drill press, and a welder. David was still the company's only employee.

As the business and reputation expanded, David started manufacturing raw frames and component parts for other manufacturers and refinishers throughout Florida. Five years later, and a few factory moves across town, Peace purchased a small powder coating system and he began selling powder coated frames. The company grew to more than twenty employees and the business expanded to manufacturing complete strap furniture, earning the company a strong reputation for providing quality commercial grade furniture.

In 1997, Windward was born as a sister company to Royal Patio. That first year, Windward developed the first sling style dining chair and began selling them to retailers across Florida. The factory soon grew to include a fully vertical sewing department, allowing further expansion of the furniture line to include a full assortment of marine grade polymer dining and seating collections.

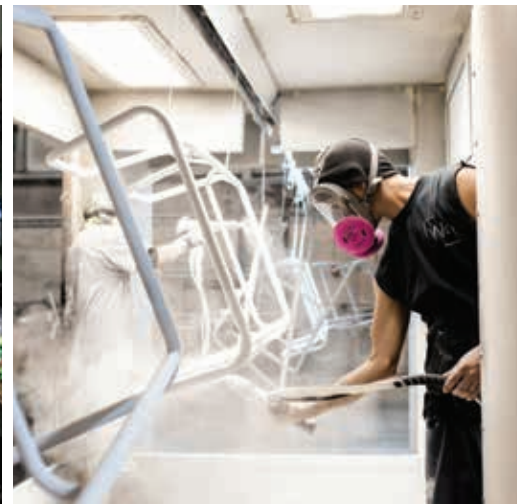

By 2002, Windward was manufacturing eighteen different collections of furniture, including deep seating, cushion dining, sling and strap styles. In 2006, the line increased to include padded sling. A couple of years later, Windward launched the Replacement Cushion Division. In 2012 the line grew once again to include multiple marine grade polymer collections.

Today, Windward operates out of a state-of-the-art 280k sq Foot facility in Sarasota, FL, where they produce over thirty-five collections and employ over one hundred and thirty people. David Peace is still the President, and two of his children work by his side. Although many things have changed, the business culture has remained the same. We take pride in manufacturing quality, stylish products and offering them at competitive prices.

OUR STORY

DAVID PEACE

“We have maintained partnerships with many of the same American suppliers for over 30 years. We’ve continued to prioritize quality and durability above all else. Most importantly, we’ve kept our family values – the values of integrity, hard work, and determination that kept me going through even the toughest times – at the core of what we do.”

OUR TEAM

This space was originally earmarked to introduce you to Windward's leadership team, but as much as we would like to take the credit for our success, all of us know that it takes a village to raise an outdoor furniture company.

It is our incredibly talented factory team, dedicated office staff, brilliant supervisors and our superstar sales team that deserves the credit. Without them, we would be nothing. And for that, we are grateful and proud.

MARINE GRADE POLYMER COLLECTIONS

Marine Grade Polymer (MGP), is a form of plastic called high-density polyethylene (HDPE). MGP will not rot, swell, blister, or delaminate. It is a non-porous material and will not absorb dirt, chemicals, or any liquid, including red wine and permanent marker, making it very easy to clean. MGP holds up in salt water and chlorinated environments without fading or breaking down. It's strength and durability are well suited for coastal and commercial environments.

ALUMINUM COLLECTIONS

Windward uses the highest quality materials available for outdoor furniture manufacturing. Windward uses commercial grade, domestically milled aluminum extrusions, many of which are proprietary and have internal reinforcing ribs to provide the additional strength expected when purchasing a quality, domestically manufactured piece of outdoor furniture.
